Attachment Number 38

Inspector General's Recommendation Number 38, Page 209

Recommended DCI Action: Disapprove

Inspector General's Statement

Recommended that:

25X1C4a

Chief, WE Division, explore with the Director of Communications and the [REDACTED] the possibility of assigning a full time communicator to [REDACTED] Station.

DD/P Comment

25X1A6a

Non-concur.

A cryptographic machine has recently been installed in [REDACTED] and personnel are presently being trained in its use. We anticipate that this will considerably reduce the time which has up to now been required at the Station on cryptographic duties. The Station staffing pattern does not allow for a full time communicator nor does the traffic load warrant such an assignment.
